I often hear myself asking, What would Dr. King say?

Today at the start of 2022, we see a nation that has come a long way, but we also see a nation still fighting racism and hate and all during a pandemic, which has further hurt our communities of color.

We must always remember how hard the civil rights struggle was and is. We must continue to work toward justice, including fighting for the voting rights bill. **This is a time to stand up for the rights of all.**

I think Dr. and Mrs. King would be very pleased to see how the holiday has become a powerful day of service. The dream and the work to achieve it go on.
“Thank you for inspiring us.”
